FRX

**TECHNOLOGY AND
PRECISION THE
PERFECT MATCH**

The finest, world-class safes, promising ultimate security. Whether you are a watch collector, jewellery lover or rare artifact owner, you will appreciate the painstaking attention to detail and outstanding craftsmanship that goes into constructing these safes.

A solid 12mm thick door, specialised compartments encased in premium leather and reinforced steel are not the only highlights of this luxurious series.

Phenomenal FRX 260

**UNLOCK IT
WITH A LOOK**
Face recognition technology

Facial recognition software is the latest and most sophisticated form of biometric security there is. Using your face as the key, our VR FRX safes are easily able to distinguish one person from another so you can enjoy quick and convenient access without hassle of having to remember a pin or carry around a physical key.

Our VRX locking technology uses a sophisticated algorithm and imaging system to map the geometry of an authorised user's face to create a unique 3D 'faceprint' that cannot be spoofed or replicated.

**Protection at
your Fingertips**

Advanced biometric technology ensures that your safes can only be unlocked by your unique fingerprint, and no one else's.

**HYDRAULICALLY SEALED
HIDDEN COMPARTMENT**

Storm Wind Thread Lock

Reinforced with exclusive, German-patented whirlwind lock, providing near-indestructible resistance against pry attacks.

- Majestic FRX 1
- Phenomenal FRX 1

Custom-Made Square Bolt

Much more advanced than the traditional cylinder bolt, the square bolt's force surface is greater- effectively improving tamper resistance.
